19 STATEMENT

20

21 Under current law, a homeowners' association cannot adopt or
22 enforce a restriction, covenant, bylaw, rule, or regulation
23 prohibiting the installation of solar collectors on roofs of two types
24 of housing: 1) a roof of a single-family dwelling solely owned by an
25 individual which is not designated as a common element or
26 common property in the governing documents of the association;
27 and 2) a roof of a townhouse dwelling unit, where the repair of the
28 roof is designated as the responsibility of the owner and not the
29 homeowners' association in the governing documents.

30 This bill makes clear that homeowners' associations in common
31 interest communities cannot adopt or enforce a restriction,
32 covenant, bylaw, rule or regulation prohibiting the installation of
33 solar collectors on the roof of any single family home or any
34 townhouse located within such a community.
